Department of Energy (Merchants of Death)  
Yucca Mountain Site Characterization Office  
M/S No. 025  
P.O. Box 30307  
North Las Vegas, NV 89036-0307

To whom it may concern,

I am totally against the storing of Nuclear Waste at the Yucca Mountain site! This abomination of nature should be shut down immediately before the lives of the public are jeopardized. There is no site on earth that is fit to hold this type of deadly material. The various nuclear power plants have chosen to create this mess and they have to be responsible for keeping this crap in their own facilities. It is not Nevada's problem! Keep this poison out of our State!!!! Maybe you can ship it to Afghanistan.

The recent terrorist attacks on our country exacerbate the potential of a nuclear disaster related to the shipment and storage of this evil waste. Yucca Mountain and the multitude of waste shipments will certainly be preferred targets of terrorists. Perhaps that is what it will take to wake you people up to this menace. I however, sure do not want to see the mass murder of innocent people just to prove that this plan is absurd....

Make no mistake about it, the people of Nevada are all opposed to this invasion of our State. We will rise up and fight this death sentence with all of our might. It will make the riots of the 1960's look like a picnic. There will be mass demonstrations and civil unrest if this plan proceeds. You will have a civil war on your hands! It seems that the DOE is determined to make Nevada an armed concentration camp in the pursuit of this folly. You are threatening the very existence of Nevada and you show no regard for our safety and/or lives. The DOE should be tried in court for genocide and mass murder if this plan goes forward.

The public hearings are a sham and a cruel joke. Mr. Spencer Abraham has already made up his mind and his refusal to come to Nevada to hear our complaints is the action of a traitor and a coward. This bullshit is being steamrolled onto us. Nevada has been raped long enough. We are tired of serving as the Nation's Nuclear Toilet! Enough of the desert has been contaminated already from all of the weapons testing. Stop trying to kill us!!!! The idea of such a huge mass of deadly waste so close to Las Vegas is so preposterous that it is hard to believe anyone would really argue in favor of it. This is simply wonton disregard for human life and liberty. The Constitution guarantees us freedom and liberty from fear. This plan is unconstitutional. You are putting an entire State under a death sentence relegated to living in constant fear. This plan is a terrorist act of immense proportions. You would make Osama bin Laden proud. You should be ashamed of yourselves!

Sincerely,

  
James Dale Collier
